

Installation and Activation

1. Start setup.exe from your drive and follow the installation procedure.
2. Start IntensityEasy software. See Disclaimer for your information. Choose your preferred settings from the Settings menu.
3. The installed software can be used as a trial version for testing up to 30 days for free without a license key and without activation. Without activation not all functions are available.
4. If you need a license key please contact sentenso GmbH at www.sentsenso.de or send an e-mail to info@sentsenso.de.
5. After purchase of the software you can start the activation. Please select 'Activation' from the Help menu, copy the License ID from the Activation window and send it to info@sentsenso.de. Close the Activation window.
6. You will receive your license key by return e-mail within one regular working day at sentenso GmbH, Germany.
7. If you have a license key select 'Activation' from the Help menu, enter your name or company name and your license key.
8. Press 'Activate' to finish the activation and make use of all software functions.
9. You may use your own logo or another picture in the export files in .xlsx and .pdf format. Select 'Export' from the Settings menu and follow the dialog to select your picture. The recommended max. picture size is 500 KB.
10. For any questions, remarks and suggestions do not hesitate to contact us:
